From the Bullimore American.

Washington, Jan. 18.—Rumors of the resignation of the Secretary of the Treasur, have been current since vesteriay. They obtain each content of the fact that they originated with Senators who were at the White House on Saturday, and may have proceeded from some remark of the Fresident's. Secretary Richardson says that the statement that he has resigned is uiterly without foundation. He does not say, it wever, that he does not intend to resign, and there are some reasons for exacting his retirement at an early day. Whether Mr. Richardson understands it or not, it is well known that the President's considering the substitution of a labor and stronger man for the head of the Treasury. The leading men in the party generally consider Mr. Richardson had the man for the place, and the Fresident's is said to hold the same views. Mr. E. D. Morgan or New York is the President's cannidate for Secretary of the Treasury, and under the arrounstances the country need not be surprised any day to hear that Mr. Morgan has been appointed in place of Mr. Richardson.

MR. HAVEMEYER'S VIEWS.

Mayor Havemeyer sent his annual mesage to the Common Council yesterday. He says that the great subject that underlies the stability and progress of all governments is the ability and progress of this but a adderst statement of the facts to say that the nanagement of the finances of this city was an agreement of the finances of this city was Jeannette H. Hammond of Peckskill, through her father, against Wm. M. Dean, proprietor an upstown saddlery establishment. The Mayor congratulates the Police bepart, men on the "vigor and intelligent zeal" with which its duties have been performed, compressed the tommissioners of Charities and Correction for their commondeal management of their department, and says that the duties of the lire, Henlih, and Dock Departments have been acceptationly done. He saggests that the care and repair of the public buildings should be to performed to the inveliest kind of a breeze. It ended, however, by an see pring which the promise to come for her sponsors of Public Works to the Department of Buildings. He says that the laws concerning the property of the public Works to the Department of Buildings. He says that the baws concerning the property. A BLAND MAN'S VIEW OF IT.

The Mayor thinks that the Tombs can, with signt alterations, be made equal to the wants of the city for many years, and suggests that application be made to the Leastature "to relieve the prison commission from the mandatory provision of the law, and to enable them to defer the erection of a new prison." He says that "issue smooth be joined by this city on every scheme which proposes to apply the public money to secure private interests and the aggrandizement of private property." He adds;

For the Brookla beinger I have received an e-timate of the amount required to complete the undertaking, which shows that Caldon's more than have been provided with the required to complete the undertaking view will be required to finish the rings of the commissions made derivate which the undertaking or that the additional the disclosures which the undertaking or the commissions made derivate progress, have not been under deriving a stressholder in this emergines to the amount of \$1,00000, and I do not think its prospects are small centry failering to justify any further investment.

THE DEST WE HAVE ANNEXED.

Having concluded his review the Mayor says:

Except as an opportunity it affords for an earnest protest 2. 1.81 a sen har earnest protest by the charter of 1870, there is but little purpose in this communication, as the charter of 1873 seaves you powerless to not upon the greater part of the foregoing recommendations. In conclusion the Mayor says that the managers of railways terminating in and about New York have succeeded "by means of so-called fast freight lines, excessive, unjustly discriminating freight charges, watering of stocks, and other devices to increase the nominal value, so as to secure an extravageant return upon the actual value of capital invested in these railroads, in driving a considerable part of the trade from among us." On \$1,150,100,000, which is the assessed value of 1855 lie tilinks that this is so high a rate that the Common Council should cooperate with him in his endeavors to prevent any legislation that may increase the burdens of the city.

Concerning the proportion of the State tax required this year from New York city and county, the Mayor says:

FIEWS OF READERS OF THE SUN ON CURRENT TOPICS.

Father Lake on Education. Sir: In your issue of to-day I noticed a report of a lecture by Father Lake on "Public Education." It is most true, as the reverend Father says, the question which agitates the public mind at the present time is the "School" Question;" and I might with truth say the question which will occupy the attention of those who desire to perpetuate the blessings which our public schools afford to the results of the second of the public schools afford to the people will be compulsory education.
